SUBJECT INDEX

Acrylamide, in rats, reproductive toxicity associated with, 457
A/J mice, oncogenic response to inhaled chemicals in, 311
Alveolar clearance in rabbits exposed to sulfuric acid mist, 213
Alveolar macrophages, activation and increment of, induced by nitrogen dioxide, 229

Beagles, lungs of, effects of ozone on mean linear intercept, 285
Benomyl, maternal exposure in protein-deprived rat, and effects on fetus, 405
Benzyl chloride, teratogenicity of, 51
Biliary excretion, inhibition of, by certain inducing agents, 395
Biliary excretion of cadmium, dithiocarbamate-enhanced, structural effects in, 429
2-Bromo-4,6-dinitroaniline, disposition and metabolism of, 37
Butylbenzyl phthalate, distribution, excretion, and metabolism of, in rat, 445

Cadmium:
  distribution and excretion of, and effects of dithiocarbamates on rats, 419
  inhalation of, and effects on mitochondrial enzymes, 191
  mobilization of, effects of monoalkyl dithiocarbamates on, 81
Cadmium chloride aerosol, pulmonary changes from exposure to, 175
Chlordecone, reduction of, in gerbil and human liver, aldo-keto reductase as responsible for, 375
Cigarette smoke, effects of, on rat lung macrophages, 221
Coal fly ash, inhibition of mixed-function oxidase activity in rat by vitamin A, 357
Cotton bract, water extract of, interactions with dog isolated airway smooth muscle, 57

1,1-Dichloro-2,2-bis[*p*-chlorophenyl]ethylene (DDE), effect of, on lactation in rats, 23
Dithiocarbamates, effects of, on cadmium distribution and excretion in rats, 419

Emphysema, pulmonary, and nitrogen dioxide, 249

Fibrosis, pulmonary, effect of ozone and silica on the development of, 297

Hepatocytes, mouse, in vitro binding of Mirex, 385

Immune responses, effects of NO_2 on, 241

Lymphocytes, cytogenic variability in phenotypically normal men, 327
Lung macrophages, of rat, effects of low-yield cigarette smoke inhalation on, 221

Manganese, soluble and insoluble, pulmonary clearance of, 201
3-Methylcholanthrene, suppressive effects on in vitro antitumor activity of naturally cytotoxic cells, 347
Mirex, in vitro binding by mouse hepatocytes, 385
Mitochondrial enzymes, effects of cadmium inhalation on, 191
Monoalkyl dithiocarbamates, effects of, on cadmium mobilization, 81
Municipal sludge-amended soil, response of Japanese quail fed seed meal from sunflowers grown on, 91
Mucosa, relative permeability to rat macrophages exposed to ozone, 269

Nickel arsenides, biological availability of, 101

Nitrogen dioxide:
activation and increment of alveolar macrophages induced by, 229
development of pulmonary emphysema, 249
effects of, on immune responses, 241

Oncogenic response of A/J mice to inhaled chemicals, 311
Organophosphorus compounds in turkeys, 365
Ozone:
effect of, on mean linear intercept in lungs of young beagles, 285
inhibition of DNA replication by, 119
pulmonary functional and morphological changes induced by, 143
relative permeability of rat mucosa exposed to, 269
Ozone and silica, effect of, on development of pulmonary fibrosis, 297

Respiratory tracts, mammalian, comparative anatomy of, 163

Silica and ozone, effect of, on the development of pulmonary fibrosis, 297
Silicosis, serum angiotensin-converting enzyme levels in patients with, 73
Sulfuric acid mist:
alveolar clearance in rabbits exposed to, 213
effects of, on mucous clearance and airway fluids of rats and guinea pigs, 129

Thiocyanate, transfer of, into chicken eggs, 441

Vinyl chloride, risk assessment for, application of the "filter model" to, 1
Vitamin A, and inhibition of coal fly ash mixed-function oxidase activity in rat, 357
